How satisfied are you with the security of the app?

Most of the apps claim to offer security but it does not happen so. However the case with SocioMee seems to enable the one. We hope that it remains up to its benefits with which it has come

Ideology

The Idea Behind The Sociomee

The ideology behind SocioMee is to serve users' advanced benefits. The app will feature **ethical content, complete privacy and serve multiple features**. One place to interact with your connection and businesses to gain benefits.

The idea behind the SocioMee is to serve the European community a space where they can connect easily. Because of the low credibility of social media apps, day by day users' are quitting the platforms. But do you think is this the only way?

The one community where there will be all sorts of liberty. There will be control with the content you wish to undergo, strict data privacy. full parental control with the content, with enhanced business opportunities. Our main goal lies you to augment the users' social presence.

We did not think so and this made us challenge ourselves. With our extensive knowledge, expertise and the day to day challenges the idea to develop a strong social community came out.
